PROFILE

I am a web developer that loves to see things grow from nothing. My experience developing has taught me to embrace challenge and new opportunities. I thrive when I am working on a team and guiding people to do their best possible work. My experience at Apple has given me the skill set to be able effectively collaborate, communicate, and delegate with a team. My experience in the music industry has instilled in me a left me with a passion for entertainment.

DEVELOPMENT EXPERIENCE

GENERAL ASSEMBLY | OCTOBER 2016 - JANUARY 2017

- Enrolled in a full-time immersive web development course
- Learned best practices of how to develop clear, modular, and efficient code
- Collaborated with teammates using various channels such as Slack and GitHub
- Developed several web applications throughout the course:
  - Created Tic-Tac-Toe to demonstrate basic use of JavaScript, HTML, and CSS
  - Created Roomie, a full-stack application designed for shared living spaces that allows the user to create a group which tracks and assigns chores to the various people in the house
  - Worked in a team to develop Chundlr, a single-page content management system that enables a user to edit and view there own posts and pages as well as view other users data.
  - Developed Roadie, a task manager for bands that allows them or their managers to be able to keep track of tasks, contacts, and expenses.

WORK EXPERIENCE

APPLE, INC | JANUARY 2012 - OCTOBER 2016

- Apple Certified Mac Technician (ACMT) certification enabling the ability to triage, troubleshoot, and repair Macintosh computers and operating systems
- Troubleshot and repaired all iOS enabled devices
- Provided training for new employees entering a variety of roles at the Apple Store
- Assisted all employees in achieving their goals through the Mentor role

EDUCATION

BACHELOR OF SCIENCE, MAJOR IN MUSIC BUSINESS
NORTHEASTERN UNIVERSITY | 2011 - 2015

- Course work focused on learning the intricacies of the music industry, marketing, technology and music history.
