ProTools

PROFILE

I am a web developer that loves to see things grow from nothing. I relish when I am working on a team and guiding people to do their best possible work. My experience in the Music Industry and at Apple, has caused me to develop a love for both technology and entertainment.

DEVELOPMENT EXPERIENCE

GENERAL ASSEMBLY | OCTOBER 2016 - JANUARY 2017

- Enrolled in a 12 week full-time web development course Learn best practices of how to develop clear and effective code
- Collaborate with teammates using various channels such as Slack and GitHub
- Develop several web applications throughout the course:
  - Created Tic-Tac-Toe to demonstrate basic use of JavaScript, HTML, and CSS
  - Created Roomie, a full-stack application designed for shared living spaces that allows the user to create a group which tracks and assigns chores to the various people in the house
  - This is space for the group project that we will be developing in the next couple of weeks demonstrating my ability to work effectively with a team
  - Some more space here for my capstone project which really showed my ability to encapsulate all I have learned her at GA which is really something

WORK EXPERIENCE

APPLE, INC | JANUARY 2012 - OCTOBER 2016

- Apple Certified Mac Technician (ACMT) certification enabling the ability to triage, troubleshoot, and repair Macintosh computers and operating systems
  Troubleshoot and repair all iOS enabled devices
  Provide training for new employees entering a variety of roles at the Apple Store
  Assist all employees in achieving their goals through the Mentor role

EDUCATION

BACHELOR OF SCIENCE, MAJOR IN MUSIC INDUSTRY
NORTHEASTERN UNIVERSITY | 2011 - 2015
